OBJECTIVE

To gain a position in a corporate organization that offers a professional working environment and enables me to grow while meeting the goals of the project and the organization.

EDUCATION

Masters in Computer Application RV College Of Engineering Bangalore (2020-2022)	8.2 CGPA
Bachelors in Computer Application Gogte College of Commerce Belgaum (2017-2020)	82.2%

SKILLS

Programming in C#, Java, Html, JavaScript, Python, ASP.Net, ADO.net,.
Database worked on MySQL, Mongo db.
Version control Git
Basic knowledge in Networking, Excel.

EXPERIENCE

Software Engineer Mphasis	September 2023- March 2024
-------------------------------------	----------------------------

During my work period at Mphasis Company, I extensively explored .NET technologies, refining my hands-on expertise in C#, ASP.NET, ADO.NET, and SQL Server.

PROJECTS

Grocery App: Participated in the creation of the Grocery App utilizing SQL Server, ASP.NET, ADO.NET, and C#. Managed the entire process, guaranteeing a robust backend and user-friendly interface.

QR-Code Based Event Management System: The proposed initiative seeks to optimize event operations by streamlining registration, ticket distribution, and attendee verification using QR codes. Enhancing efficiency in event management entails establishing a MySQL database and analysing attendee and activity data stored within it.

Club Manager: An innovative web application designed to streamline the management of diverse activities within a cricket club. Leveraging HTML, CSS, and MySQL, it offers a user-friendly interface for seamless interaction. Meanwhile, ensuring a robust backend, the application facilitates efficient data handling and processing, enhancing overall club operations.

EXTRA-CURRICULAR ACTIVITIES

- Paper Presentation on “Movie Recommendation System Using Machine Learning Algorithms”.
- Successfully completed 4 exams in Tabla.

INTERESTS AND HOBBIES

Playing Football, Cricket, Chess and Travelling.
